Dear Sirs, Please leave my XM Radio alone! I am an avid radio listener and XM Radio just enhances my listening. My husband and I travel and XM is frequently the only way we can listen to our favorite news and talk shows. The XM Instant Traffic and Weather won't take away from local stations - it merely is an added outlet when we need it. We pay for our XM Radio coverage and should be able to get the traffic and weather coverage. The National Association of Broadcasters are being greedy and ridiculous! Please reject the NAB's petition 94-160.

Thank you,  
Veronica Lutostanski
